

Financial Information Month Jingle 2009

You Got To Save and Invest To Enjoy Tomorrow

Chorus

Running over

Running over

Your cup could be full and running over

But you got to save and invest

Yes you got to save and invest

You got to save and invest to enjoy tomorrow

Everyone has a dream, something big they would like to accomplish tomorrow.

The problem is implementation; it's a higher life goal,

Nine times out of ten the result is horrible failure.

But there is a simple blueprint to follow;

Saving and investing these are your tools

Don't be satisfied 'till your cup gets full ...and running over

Chorus

Running over

Running over

Your cup could be full and running over

But you got to save and invest

You got to save and invest

You got to save and invest to enjoy tomorrow
